DISCOVER THE WONDERS OF KNOWLEDGE

With 7 main learning areas that cover topics tailored to each age group, the Summer Camp is designed for students ages 6 to 13. It increases opportunities for students to explore their own identities and develops a broad range of skills that will help them in the future.

At the Summer Camp, every class for every age group takes part in an amazing summer voyage that takes them on seven thrilling adventures across six continents. Let's explore the thrilling experiences that await all of you in these 7 adventures!

Cultural Odyssey

Leadership Activities

Tech Adventure

**World of
Performance Art**

Dynamic Sports

Essential Skills

Culinary Arts

A UNIQUE SUMMER JOURNEY

WITH 7 ADVENTURES IN THE OCEAN OF KNOWLEDGE

Cultural Odyssey

Students will take part in an international adventure to learn about geography, culture, and global issues. By traveling back in time to study historical events and human civilizations, as well as the voyages of great explorers who shared ideas that revolutionized society, students will develop a sense of curiosity, global awareness, and appreciation for cultural variety.

What will students learn in Cultural Odyssey?

- ★ Develop comprehensive English proficiency
- ★ Explore the wonderful world of Science
- ★ Learn the "encyclopedia" of Geography
- ★ Enhance aesthetic thinking and the ability to perceive different types of Visual Arts

Leadership Activities

Founded with the strong belief that every student has the potential to be a leader, Leadership Activities aim to familiarize students with the 7 Effective Habits (Stephen R. Covey), instilling them with confidence and fundamental skills such as teamwork, communication, critical thinking, creativity, and social-emotional skills needed to progress from small school projects to becoming outstanding leaders in the future.

What will students learn in Leadership Activities?

- ★ The 7 Habits of Happy Kids
- ★ The 7 Habits of Highly Effective Teens (Years 6 & 7 students)

Tech Adventure

Tech Adventure is a specially developed subject group with the goal of focusing on building programming thinking and the ability to explore and adapt to the most advanced technologies, to create a generation of receptive, creative, and confident students.

Students that attend Tech Adventure will learn about a variety of modern technologies, including robotics, drone, AR/VR, IoT, and AI, while also engaging in a variety of engaging hands-on activities that involve the use of modern machines like 3D printers and CNC cutting machines to create actual products.

What will students learn in Tech Adventure?

- ★ Program and control unmanned aircraft (Drone)
- ★ Learn about Creative Design
- ★ Explore renewable energy sources (Renewable Energy)
- ★ Be an "inventor" (Exploration of Invention)
- ★ Learn about Atmosphere Protection Project
- ★ Harness the power of technology (Internet of Things)
- ★ Learn about Application of Data Science and Artificial Intelligence in Schools (Data Science & AI)

World of Performance Art

The World of Performance Art broadens one's comprehension of the arts and cultures of many nations and continents, helps release energy, and improves health, flexibility, and endurance. Students will feel as though they are in magical places as they study and practice well-known songs and dances from folk, traditional, and modern cultures throughout the world. This will also help them develop their confidence and stage presence.

What will students learn in the World of Performance Art?

- ★ Traditional Asian music
- ★ Classical arts and famous European dances
- ★ Culture and art of African tribes
- ★ The colorful music and dance of the Americas
- ★ The "strange yet familiar" performing arts of Australia
- ★ Unknown things about the culture and art of the Arctic region

Dynamic Sports

In addition to being a playground for thrilling activities, Dynamic Sports introduces students to the diverse world of athletic events and sports.

The mission of Dynamic Sports is to provide students with the knowledge, and physical fitness, and enhance their overall health, and athletic prowess to compete in the 2024 Summer Olympics.

What will students learn in Dynamic Sports?

- ★ Competitive sports involve competing individually and in groups
- ★ Individual and group competitions to develop personal skills and learn how to cooperate with teammates
- ★ Sports techniques and tactics
- ★ Intensive training and preparation for the 2024 Summer Olympics

Essential Skills

Students will be given the chance to experience handling, comprehending, and dealing with a variety of real-life situations with a positive attitude. In the process, students will acquire fundamental yet equally significant skills that are relevant nowadays, particularly in light of globalization and multiculturalism.

Essential Skills are not just lessons but also a journey that helps develop students' personalities and confidence to be ready for challenges in a diverse world.

What will students learn in Essential Skills?

- ★ Active listening skills, intellectual curiosity, and respect for teachers through the topic of Asia Discovery
- ★ Observation skills, presentation skills, and critical thinking skills through research on the history, lifestyle, and Western culture
- ★ The way to observe nature, survive, and cope with life's difficulties through an adventure to Africa
- ★ Knowing how to find and understand yourself, preserve unique values, and learn to respect the differences in each person through understanding about cultural diversity, history, and the formation of the Americas

Culinary Arts

Culinary Arts is a distinctively designed summer camp that combines three distinct fields: cuisine, baking, and bartending. This integration helps transform the kitchen, oven, and bar into an alluring environment for campers. Students will have a very different summer experience here. Through the most hands-on experiences, students will become skilled bakers, expert chefs, and hip baristas.

What will students learn in Culinary Arts?

- ★ Explore the world of cuisines
- ★ Explore the colorful world of cakes
- ★ Explore the passion for bartending
